

Factsheets Produced by Other Sources

Although we have created our own factsheet series addressing a variety of stormwater issues, there are many other series available that might enhance your outreach efforts. The following list is not meant to be comprehensive, but it does include links to materials on topics that our series lacks. The bulleted items are included in this section of the binder.

U.S. Environmental Protection Agency

<http://www.epa.gov/owow/nps/toolbox/>

The EPA has assembled a vast collection of outreach and education materials related to stormwater and other sources of non-point pollution.

Rhode Island Department of Environmental Management

<http://www.dem.ri.gov/pubs/index.htm>

The collection of brochures and factsheets includes:

- *Ten Things You Can Do to Improve Water Quality in Rhode Island;*
- *5 Reasons Why Feeding Waterfowl is Harmful;*
- *Dealing With Resident Canada Geese;* and
- *Water Pollution Control in the Autobody Shop.*

The Blackstone River Coalition

<http://www.zaptheblackstone.org/>

Following the Publications link on the BRC's homepage, you will find a document called, *Homeowner's Guide to Protecting Water Quality in the Blackstone River Watershed*. While targeted at a specific community, this resource contains information that could be replicated in other watersheds. The BRC also has produced many resources in support of their *In Business for the Blackstone* Program.

University of Rhode Island Cooperative Extension

Healthy Landscapes

http://www.uri.edu/ce/healthylandscapes/index_landscaping.html

- *What You Can Do About Nonpoint Source Pollution*

GreenShare

<http://www.uri.edu/ce/factsheets/index.htm>

These factsheet series offer specific advice about landscaping in a way that minimizes pollution contributions.
